

QuikTran™

NC CODE TRANSLATION SOFTWARE

QuikTran provides a convenient method of translating numerical control (NC) part files from one format into another. Save countless hours of wasted time re-programming nests by importing pre-existing code created for an old cutting machine and exporting code for the new cutting machine. Even if used for translating code once, when the new machine is installed, QuikTran can immediately pay for itself in programming time savings. In addition, QuikTran will produce accurate code and avoid the errors associated with manual code translation. Also, because QuikTran uses code that already exists in the NC file, errors that can occur while reprogramming in other NC systems are eliminated.

STANDARD FEATURES

- Works with more than 100 different controller formats
- Quickly translates NC code formats
- Allows creation of custom configuration files
- Provides code preview for original and translated NC code
- Shows view of process, kerf, feed length, rapid length, dimensions, and area of every translated file
- Part files can be converted to a different machine control format
- Part files can be changed from absolute to incremental format
- Part files can be changed from inch to metric
- Part files can be changed from one cutting process to another

Detailed summary of the output file can be printed, including the following

- Format (absolute/incremental)
- Precision (normal/extra if supported by control)
- Units (inch/metric)
- Part area
- Feedrate motion length
- Rapid motion length
- X and Y dimensions
- Number of process on and off commands for each process
- Number of kerf commands (left, right, off)

OUR COMMITMENT

MTC Software provides your business with the industry's best software solutions, which are continually being developed to incorporate the latest technology. We possess an experienced and dedicated team of professionals who understand the industries we serve and are available to help you use QuikTran effectively, now and in the future.

By investing in MTC Software, like thousands of other companies worldwide over the past 20+ years, you can feel comfortable that you're partnered with a company that measures its success by ensuring yours.
